

**For Immediate Release:**

*Dateline: Tampa/New York City – July 1, 2009*

**Acutrek Systems (NY) and Harbour Mastery (Tampa) Ink Alliance Agreement – Integrating Seaport, LNG and Airport Perimeter Surveillance / Security Capabilities**

Acutrek Systems LLC of New York and Harbour Mastery®, Inc. of Tampa announced today their alliance partnership agreement aimed at drawing a tighter web of surveillance and security management around seaports, airports as intermodal nexuses for the movement of people, cargo and vehicles (ships, aircraft, rail and trucking).

Mike Fleisch, President/CEO of Acutrek Systems, will serve on the Harbour Mastery Global Advisory Board. Mr. Fleisch has extensive background in system design and integration for large systems-of-systems. Currently, Mike is involved in industry advisory roles involving Department of Homeland Security programs such as the US Secure Border Initiative (SBI and SBInet) as well as past roles for the New York Trojan Horse Project to prevent and deter terrorist perimeter intrusion in New York City.

*“Our participation in the Harbour Mastery Alliance will give us wider scope and access to both delivering our products to the security market, and bringing to our clients state-of-the-art solutions from other alliance partners that are affordable and scalable in today’s tightening economy”* comments Mr. Fleisch.

M. George Walters, President of Harbour Mastery, will serve as an advisor to Acutrek Systems for maritime industry related port centric and intermodal security systems integration. Mr. Walters currently works in an advisory capacity to multiple small vendors who constitute the Harbour Mastery Alliance and several larger companies such as ICF International. He also regularly presents and moderates Homeland Security / Maritime Domain Awareness conferences in advanced systems solutions for cyber security, virtual vision (Command and Control), and intermodal commerce management and security along with other alliance partners.

*“We are pleased to have Acutrek join our ranks as a new company whose principals have a proven track record of experience in forward looking approaches to surveillance and security and a trail of satisfied customers behind them”* adds Mr. Walters.

About Acutrek Systems: Acutrek Systems LLC, located in the New York metropolitan area, is a Surveillance and Security systems product and technical solutions provider. The Acutrek Team brings a background and demonstrated design, development, and integration capability in Maritime Domain Awareness and fixed terrestrial site Intrusion Detection Systems. These systems utilize advanced sensors and technology including radar, video analytics and automatic identification system (AIS). Most notably, the Acutrek principal members led the engineering, design and integration team responsible for Port Authority New York/New Jersey Perimeter Intrusion Detection System (PIDS), the world's premier wide area airport security system. Additionally, the Acutrek members were the lead systems architects for the Liquid Natural Gas (LNG) Video Surveillance System for the US Coast Guard, the Dallas / Fort Worth Airport Perimeter Security System, and the Department of Energy Classified Surveillance System. The Acutrek Teams also brings broad surveillance systems design and integration capabilities in the international markets relative to oil and gas pipeline and refinery markets.

About Harbour Mastery: Harbour Mastery, Inc. is a consulting and marketing firm engaged with multiple alliance partner professionals focused on integrated and advanced systems approaches to seaport and intermodal supply chain management and security through the seaport nexus. Harbour Mastery principals have an 18 year history of identifying and/or providing integrated port management solutions to clients such as the Tampa Port Authority, the 16<sup>th</sup> largest port in the USA, and the State of Hawai'i DoT Harbors Division (with ICF International), and PND Engineers who serve the State of Alaska and Seattle ports (with Maritime Directions Management Corp, Miami).
