ALLIANCE ZONE

i-Seaports is a Scalable, Extensible and Interoperable Platform for multiple management, security and logistics partners:

i-Seaports™ Management brings three great ideas together:

1. One system to run any Seaport Enterprise
2. Delivered and supported via the Internet
3. Tailored and extended to any seaport and country requirements

i-Seaports can be remotely managed or centrally controlled according to the government and/or client requirements for emergency and operational needs in any country.
